

Team Name: Software Surge
Report Number: 4
Reporting Week: 4

Summary of work completed in prior week:

This week our team conducted the requirements interview and then met on Tuesday as a team to discuss the results of the interview. We started forming a requirements hierarchy and then split the team into frontend and backend groups to start working on researching different languages and platforms to use for Majorizer. We also continued work on the team website and going through the Clarkson Course catalog.

Summary of work planned for next week:

For this upcoming week we'll continue refining our requirements and making them into a clear list for the requirements presentation. Our team will also continue working on researching frontend and backend software that we can use for developing Majorizer.

Open issues and action plan to resolve them:

At the moment our team has no issues.

Project management summary

Team member	Tasks completed	Hours worked for week	Total hours
