

Team Name: Software Surge
Report Number: 11
Reporting Week: 11

Summary of work completed in prior week:

This week our team continued working on updating the frontend of our project, making edits suggested during the frontend presentation along with general edits to the appearance of the site. The backend team worked on implementing the backend algorithm and adding information to the database.

Summary of work planned for next week:

This week the frontend team will continue making edits and updates to the frontend, and the backend team will continue working on updating the database to include courses and implementing the forecasting algorithm.

Open issues and action plan to resolve them:

Our team currently has no active issues.
