Team Name: Software Surge
Report Number: 8
Reporting Week: 8

Summary of work completed in prior week:

The frontend team began work on the code for the different pages of the website, with the majority of the pages done and the remainder to be completed early next week. The backend team has continued working on mapping out the design of the backend.

Summary of work planned for next week:

This week our frontend team will wrap up work on the frontend design, and then attention will shift to developing the backend of the program. This week our team will also work on creating and presenting our Mid Semester Progress Report Presentation.

Open issues and action plan to resolve them:

At the moment our team has no active issues.

Project management summary
