Team Name: Software Surge
Report Number: 6
Reporting Week: 6

Summary of work completed in prior week:

This week our team completed our requirements presentation. We also continued work on researching different platforms, and began further work on mockups for the project's frontend along with continued development of the team website. Finally, members of the team working on backend development continued their work mapping out the backend, currently doing so with a graphical mindset.

Summary of work planned for next week:

For the upcoming week the team will continue to work on researching platforms for the project, and begin finalizing mockups for frontend and starting to transfer those mockups into code form. Backend members of the team will continue working on constructing the graph layout of the backend.

Open issues and action plan to resolve them:

At the moment the team has no active issues in need of resolution.

Project management summary

Team member	Tasks completed	Hours worked for week	Total hours
Payton Shafer	I continued to learn how to use react and django in preparation to start configuration of the website	8	26
